## March Madness: New Format Boasts Highest Ratings in 20 Years

Thurs' coverage of the NCAA Div I Men's tourney across TBS, CBS, TNT and truTV combined to deliver an overnight HH rating/share of 5.7/13—making it the highest rating for the 1st Thurs of the tournament in metered markets since '91 when it expanded to 4 telecast windows for the entire day. Ratings were up 24% from 4.6/11 for CBS Sports in '10. Fast nationals Fri afternoon put the rating/share at 5.0/12.2, still the most-watched first Thurs since '91. NCAA March Madness on Demand delivered a 22% increase in total visits across online and mobile apps Thurs—with 7.6mln visits across platforms and 3.3mln total hours of live, streaming video. And move over Time Warner Cable's iPad app. The NCAA March Madness on Demand app rose to the #1 downloaded spot in the iTunes App store Thurs. The impressive numbers came against the backdrop of some fretting over cable's rights to the hoop action. Rep Joe Courtney (D-CT) and Sen Richard Blumenthal (D-CT) complained to NCAA pres Mark Emmert and CBS pres/CEO Les Moonves that as many as 150K over-the-air HHs in his state would not be able to watch Thurs' game between the UConn and Bucknell because it aired on TNT. Local CBS affil WFSB aired Wofford vs Brigham Young. "I believe the public interest would be better served by enabling fans in Connecticut to view Thursday night's game, instead of limiting its accessibility to just those households that have cable or satellite service." Blumenthal wrote in a letter to Emmert and Moonves. The high ratings make it unlikely such concerns will gain much traction. Many welcomed the new 4-game format because it means that for the 1st time, every NCAA game will be shown in its entirety. Reviews of the new format were generally glowing. "The production is slick, the graphics timely and improved," said an article in the Austin American Statesman Fri. "And then there are the entertaining studio shows. Turner has trotted out its NBA guys—Ernie Johnson, Kenny Smith and, of course, Sir Charles Barkley—and they are making it more fun." The NJ Star-Ledger called the coverage a pleasant surprise. "Having all 4 games on at once is a nice way to be able to flip back and forth between good and bad games," the paper said. Of course, buzzer-beaters on all 4 nets Thurs didn't leave everyone smiling. ESPN reported that 76% of the brackets on ESPN.com had Louisville in the Sweet 16. Better luck next year.

Merger Mania: The FCC approved the merger of CenturyLink and Qwest Fri, conditioning it on the launch of a

major broadband adoption program aimed at low income consumers (qualifying HHs would be offered broadband at less than \$10/mo and a computer for less than \$150). Other conditions also show the influence of the National Broadband Plan, such as a condition increasing the capacity of the Qwest network to actual download speeds of at least 4Mbps to at least 4mln more homes and businesses and at least 20K more anchor institutions, such as schools and libraries. The merged company also agreed to more than double the number of homes and businesses that can get 12Mbps and triple the number that can get 40Mbps. The combined company also must phase down 3 forms of USF support designed for smaller companies and ensure the deal doesn't harm interconnection agreements with competing phone carriers.

**Portal Reax:** As expected, the **FCC** is slated to take up wireless roaming and pole attachment orders at its open meeting Apr 7, with the Commission releasing a preliminary agenda Thurs night (*Cfax, 3/18*). "We commend chmn [*Julius*] *Genachowski* for moving forward on the important issue of wireless data roaming," said **NCTA** evp *James Assey.* "As new entrants look to expand consumer choice for wireless Internet access service using licensed spectrum, enforceable roaming rights enable competitors to offer a nationwide service and compete with incumbent providers." Cable's also happy that the FCC will vote at that meeting on establishing uniform pole attachment rates based on the cable rate, saying it will provide regulatory certainty and encourage buildout of broadband networks.

# Cable FAX workshop April 5, 2011 8:45 How to Motivate Employees to Boost Bottom Line and Retention

Reports and statistics show that a motivated workplace is essential to the financial success of an organization. With cable competition perhaps at an all-time high and budgets tighter than they've been in years, MSOs, programmers and vendors must maximize employee talent. On top of that, managers are being asked to do more with less. In this climate, motivation, leadership and retention have become even more important to the bottom-line.
